The Commission believes that the CAT NMS Plan, once fully implemented, will improve the quality of the data available to regulators in four areas that affect the ultimate effectiveness of core regulatory efforts—completeness, accuracy, accessibility and timeliness.¹⁹ The improvements in these data qualities would substantially improve regulators' ability to perform analysis and reconstruction of market events, and market analysis and research to inform policy decisions, as well as perform regulatory activities, in particular market surveillance, examinations, investigations, and other enforcement functions.

The Commission estimates that 1524 respondents²⁰ will require an aggregate total of approximately 7,572,610 hours per year to comply with the collection of information. The Commission further estimates that the aggregate cost to comply with the collection of information will be approximately \$463,322,593 per year.

Written comments are invited on: (a) Whether the proposed collection of

information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's estimates of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.

The reports also provide a summary of the activities in which exchange visitors were engaged and indicate information about program effectiveness. Program sponsors include government agencies, academic institutions, and private sector not-for-profit and for-profit entities.

Methodology

Annual reports are completed through the Student and Exchange Visitor Information System (SEVIS) and then printed and signed by a sponsor official,

and sent to the Department by email, mail, or fax.
